EDUCATION

Technocrats Institute Of Technology

B.Tech in *Computer Science*

CGPA: 7.37

Bhopal, Madhya Pradesh

Expected Graduation, May 2025

EXPERIENCE

FIVERR

June 2022 – April 2024

Freelance (Part-time)

Managed client projects from start to finish, ensuring high-quality delivery and fostering strong client relationships on the Fiverr platform.

PROJECTS

EARLYSTEP

June 2024- Current

Tools: **Html, CSS, JavaScript, Django.**

Based on a Japanese principle emphasizing that modern-day human attention spans are decreasing due to **social media**, this **web application** aims to provide quick, concise, and **easy-to-follow** steps for handling emergencies such as snakebites, drowning, and accidental ingestion (like coin swallowing).

Responsibilities:

- Developed the front end using **HTML, CSS, and JavaScript**, creating a responsive and intuitive user interface.
- Managed the backend entirely with Django, handling data storage, retrieval, and user management efficiently.
- As a backend developer, I contributed to the group project by designing the website with **Python, Django(framework).**

BLOG WEB APPLICATION

June 2023 – July 2023

Tools: **Django, Python, PyCharm.**

Created a web app with **PyCharm** and **Visual Studio Code**. The app will serve as a backend system, handling user authentication and data storage.

Responsibilities:

- Develop a robust backend system that integrates seamlessly with the front end.
- Implement user authentication to secure user accounts.
- Set up data models and storage mechanisms for efficient data management.

ACTIVITY AND ACHIEVEMENTS

- Earned a certification in **Python** Programming by Great Learning.
- Earned a certification in Python for **Machine learning** by Great Learning.
- Earned a certification in **Cybersecurity** by Google (Coursera)
- **Google** Devfest Participant and **Cloud** community (GDG BHOPAL 2023-2024)
- **Member**, [Google Developer Group](#)

SKILLS

Programming: Python, Data Structures and Algorithms, HTML/CSS

Framework: Django, Flask

Database: SQL, MongoDB

Servers: AWS, Heroku, Vercle, pythonanywhere

Tools: IntelliJ, PyCharm, Docker, Git, Visual Studio Code.
